

Professional Therapy Services

We partner with RehabCare to provide Physical, Occupational, and Speech Therapy services for our Ventilator/Respiratory and Comprehensive Care residents. These professional and licensed therapists are available daily and are intimately involved with each resident to help them achieve their highest level of independence and restore as much prior function as possible.

Respiratory Therapy Services

We partner with Levindale, a LifeBridge Health Center, in the management of our ventilator unit and in the training of our Respiratory Care Unit staff.

Providing The Area's Highest Level of Short & Long Term Ventilator Care

Who We Are

Citizens Care & Rehabilitation Center has provided more than 30 years of Skilled Nursing & Rehabilitative Services to the Frederick Community and surrounding areas. Owned by Frederick County and serving residents of Maryland and the Tri-State area, Citizens opened its new 170-bed facility in the summer of 2012.

Whether dealing with a short-term condition, or a long-term life adjustment, we understand that each resident's needs are unique. We are committed to excellence with the quality of care that we provide.

Our Goal for You

Striving to reach above & beyond expectation is always the goal for all of our Respiratory Care Unit residents whether they require short- or long-term care. We endeavor to maximize the resident's involvement in all aspects of their lives.
